**Sun Chlorella "A" Awarded Prestigious Grand Gold Award  
from Monde Selection**

**April 30, 2009, Torrance, CA** - Sun Chlorella USA, the U.S. and Canadian distributor of Sun Chlorella products, is proud to announce that Sun Chlorella "A" Tablets and Sun Chlorella "A" Granules have received the Grand Gold Award from Monde Selection.

"We are honored to be the recipient of such a prestigious award, which reaffirms the premium level of quality that Sun Chlorella products have maintained for nearly 40 years," said Yoshihito Nishimaki, President and CEO of Sun Chlorella USA.

Monde Selection, founded in 1961 in Brussels, Belgium, is the oldest and most representative, Independent International Institute in the field of Quality Selections in the world.

Each year, over 1500 products are submitted for evaluation from more than 70 countries. Monde Selection Grand Gold, Gold, Silver and Bronze medals are awarded by a jury of independent experts.

In the Diet & Health Selection, Monde Selection verifies whether the components of a product are as labeled. Calories, vitamins, carbohydrates, amino acids, and other components are part of the standard tests. While the tests are used to advise producers and manufacturers, the best interest and protection of the end consumer is the priority.

The testing laboratories, Brucefo and Biotox, used for diet and health products, are accredited by the Belgian Federal Public Service.

Sun Chlorella "A" is grown in fresh water mineral pools where it is carefully nurtured 24 hours a day, 7 days a week.

To ensure its purity and high quality, Sun Chlorella follows Good Manufacturing Practices (GMP). GMP requires manufacturers to take proactive steps to ensure that their products are safe, pure, and effective.

Sun Chlorella, a single-cell, fresh water green alga, helps to detoxify and rejuvenate the body. It contains more protein and chlorophyll than any other plant; is high in vitamins, minerals, dietary fiber, and nucleic acids; and, includes all the essential amino acids.
